

# BARFOOT & THOMPSON

LICENSED REAA 2008

## CORPORATE VOLUNTEERS & SPONSORS

**Professional Real Estate agents and conscientious local people, happy to help in the community.**

### WHY getting involved

They live and work locally and want to contribute in a meaningful way. Helping a local organisation which sprung out of volunteers, continues to be powered by volunteers, thanks to organisations such as Barfoot & Thompson. Being in nature and working together as a team, creates stronger bond between people and helps us get to know each other better.

### WHAT do they do to help

Rolled up their sleeves and planted 80+ trees, redistributed several large piles of mulch and removed invasive species, such as Japanese Honeysuckle. All this contributes towards the diversity and protection of our largest urban forest which supports the diversity of bird, reptile and insect life.

Working together as partners and sponsoring a community planting day to enable more such volunteer days to take place.

“

**Great exercise and happy to have been involved.  
What a great day to be out in the fresh air today! Well done  
and thanks to everyone for showing up, it was a lot of fun and  
together we definitely made a difference to the area.**

”
